

FROM ADVISORY & OVERSIGHT COMMITTEE:

As you will have gathered from our frequent News Releases and other social media postings, progress at the two construction sites has been remarkable over the last year, despite interruptions in April last and General elections in November. We are happy to announce that renovation of Alison House is complete, bar the installation of a Central Ventilation System, an intervention considered necessary recently by the Consultant Engineer and the Architect. The new Commerce Block (class rooms) is structurally near 60% done; completion expected by June this year. The A&OC is now poised to take on the third project viz, the New Science Block, for which preliminaries are already in hand.

We are delighted to announce that Old Boy donations (paid-up) have now surpassed Rs. 70 million!, and further pledges amounting to Rs. 50 million expected over the next two years. Our grateful thanks to all those old boys who have lent their shoulders to the wheel.

We said goodbye to the former Principal Mr. Andrew Fowler Watt upon his resignation in January. Being the architect of T 150, he was responsible for fashioning and kick-starting this much needed though challenging, infra-structure development project with great intensity and courage; our grateful thanks to him. We wish him and Mrs. Fowler Watt well in their future endeavours.

We welcome Dr Nalin Wikramanayake, the new Acting Principal, an old boy and a former member of the Board of Governors. He has a PhD from MIT, a Chartered Engineer and is a senior Lecturer in the Open University of Colombo. He has our best wishes.

Meanwhile, for us at the A&OC, it is, as always - - FULL STEAM AHEAD !
