About us

The kindergarten lays the foundation for the rest of a student's school career and plays a vital role in his all-round development.

In Grade 2, children are taught reading and writing skills, mathematics, religion and other creativity-based subjects such as dancing and rhythmic, handwork, art, singing, IT and most importantly, social skills.

Producing weekly newsletters is a new project in Grade 2, with the goal of highlighting its weekly activities and appreciating the effort of students and teachers.

Our Message

The History of wind chimes and their uses;

A wind chime is an instrument that is suspended from a wire or string and has multiple tubes, rods or bells that move around when the wind is blowing, which results in noises or sounds when those objects interact with each other.

Who Invented Wind Chimes? The journey of the history of wind chimes goes from Ancient Rome to China.

We are happy to share with you our creative talent with these wind chimes, done during the Online Handwork sessions.

In this issue

Recycled materials as well as coloured papers, sequins, pearls and glitter dust in different colours were used to create the wind chimes. Discarded CD's were painted, dusted with glitter and strunged together so that they make a magical sound when the wind blows. The students loved it. Beaded wind chimes are fun to make and students get to experiment with patterns which is a key Kindergarten math skill.

Turn the pages for a joyful experience of colourful wind chimes!
