## About us

The kindergarten lays the foundation for the rest of a student's school career and plays a vital role in his all-round development.

In Grade 2, children are taught reading and writing skills, mathematics, religion and other creativity-based subjects such as dancing and rhythmic, handwork, art, singing, IT and most importantly, social skills.

Producing weekly newsletters is a new project in Grade 2, with the goal of highlighting its weekly activities and appreciating the effort of students and teachers.

## Our Message

### THE FORGOTTEN HISTORY OF FATHER'S DAY

Father's Day was invented by American Mrs. Sonora Smart Dodd who wanted to honor her father, a veteran who had, as a single parent, raised his six children.

The first celebration was in the Spokane YMCA on June 19, 1910.

Anyone can father a child, but being a dad takes a lifetime. Fathers play a role in every child's life that cannot be filled by others. This role can have a large impact on a child and help shape him or her into the person they become.

Father involvement has increased dramatically over the past several decades, and simultaneously, the role of fathers in their families has evolved from conceptions of fathers as distant breadwinners to a more holistic recognition that they are equal co-parents.
