

GRADE 2 WEEKLY NEWSLETTER

KINDERGARTEN TRINITY COLLEGE, KANDY

Issue: 09

Date: 12 September 2021

www.trinitycollege.lk

About us

The kindergarten lays the foundation for the rest of a student's school career and plays a vital role in his all-round development.

In Grade 2, children are taught reading and writing skills, mathematics, religion and other creativity-based subjects such as dancing and rhythmic, handwork, art, singing, IT and most importantly, social skills.

Producing weekly newsletters is a new project in Grade 2, with the goal of highlighting its weekly activities and appreciating the effort of students and teachers.

Our Message

Paper pulp

Papier mâché or paper mache is a popular crafting technique that uses paper and a paste to create a variety of objects. The method is named after the French term for "chewed paper," which makes sense given the steps needed for any paper mache project.

This age-old craft spans multiple generations and countries, assisting in the making of several objects. Although the name is French, this method didn't make an appearance in France until the 17th century. Before then, the technique was used in China and elsewhere in the world as far back as 200 BC.

In this issue

Students enjoyed the session firstly making paper pulp & then making an object using that. And finally the decorating was so much fun!

You are sure to find beautiful creations this week too!
